### **Practice Questions MES-102 – (Instruction in Higher Education)**

1. Critically examine the objectives and characteristics of instruction in higher education. How do they differ from school-level instruction?
2. Discuss the role of a teacher as a facilitator of learning in higher education. How has this role evolved in the 21st century?
3. What are the key components of an effective instructional system in higher education? Explain with suitable examples.
4. Describe various teaching methods used in higher education. Evaluate their effectiveness in achieving instructional objectives.
5. Discuss the systems approach to instruction. How can it be applied in designing college/university-level courses?
6. Critically analyze the use of educational technology in enhancing instructional quality in higher education.
7. What is the importance of curriculum design in higher education? Discuss the principles and stages involved.
8. Explain the concept of learner autonomy. How can higher education institutions promote self-directed learning?
9. Evaluate the role of online learning and MOOCs in expanding access to higher education.
10. Discuss various approaches to evaluation and assessment in higher education. How can continuous evaluation be effectively implemented?

11. What are the challenges of implementing outcome-based education (OBE) in Indian higher education institutions?
12. Explain the nature and importance of academic planning at the university level.
13. Compare and contrast lecture-based instruction with interactive teaching methods in higher education.
14. Discuss the significance of professional development and training of teachers in higher education.
15. What is instructional design? Discuss any one model of instructional design suitable for higher education.
16. Examine the importance of student feedback in improving instruction at the higher education level.
17. How can inclusivity and diversity be promoted through instructional strategies in higher education classrooms?
18. What are the emerging trends in instructional practices in Indian higher education? Discuss their implications.
19. Analyze the role of ICT tools (e.g., LMS, virtual classrooms, e-content) in transforming higher education delivery.
20. Design an instructional plan for a topic in your subject area, applying principles of effective higher education instruction.
